- A The largest sandspit was located on the plus 7.0 contour approximately 60 feet long by 100' wide. The highest point found was plus 8.1. The long axis of the sandspit was oriented at 31 degrees East. The coordinates of approximate center of area were NL 6,19% Elll, 205.

The coordinates are based on the 1950 International Land Grid system and development was made on the Farnsworth Survey, 1:250,000 Sletor 1015, Revision one.

FOOTER:

Reference: D. L. Narver letter May 15, 1951 - Sandspits for Project 1.2b, Item 5

The largest sandspit west of Site Dog has a plus 7.0 contour approximately 650 feet long by 50 feet wide. The highest point found was plus 8.1. The long axis of the spit has a bearing of North 75 degrees East. The coordinates of approximate center of axes are N166,190 E111, 285.

The coordinates are based on the Preliminary Plant Grid system and development was made on the Site Dog traverse shown on Field Sketch 5015, Revision One.
